

### Immunocal Derma

Our skin is not only our body's largest organ, immunologists consider it "our first line of defence", our immune barrier. Nourish your skin with a proprietary blend of beneficial. Skin problems are the fourth leading cause of illness worldwide. That's because our skin is continually exposed to harmful environmental factors such as pollutants and toxins. Protection from these harmful agents is essential for **women and men**. Treating and moisturizing your skin is one way to combat this problem.

The clinical results are impressive with results from a six-week clinical study of 22 participants conducted by one of Canada's top research firms:

- 100% of participants noticed an improvement in overall skin condition
- Over 90% reported more hydrated skin
- Over 85% noticed smoother and softer skin
- Over 75% experienced firmer and more supple skin
- Anti-aging effects due to significantly reduced fine lines and wrinkles

#### Benefits:
